

M Ball

17-9043

April 3, 1924.

Subject: Statistical report.

San Juan Fishing and Packing Co.,
Seattle, Washington.

Gentlemen:

In reply to your letter of March 29, transmitting a report of your operations at Ketchikan, Alaska, the Bureau is pleased to advise that this report is complete in every respect. It presents exactly the information needed.

This office understands that strictly speaking you are not the producer of the quantities of fish handled by your Ketchikan buyer, but the Bureau must depend very largely upon such operators as your company for statistics of this nature, as it would be a hopeless undertaking to obtain the necessary reports from the actual producers. Therefore in future it is desired that a separate report be submitted for each unit of your Alaska operations. Blanks will be distributed by the Bureau in the usual manner.

Your cooperation in this matter is appreciated.

Very truly yours,

Henry O'Malley,

Commissioner.
